

AF 100 START & STOP

Machine dimensions:
(L) 1,680mm x (W) 650mm x (H) 1,500mm

Machine technical features

Cable transport system: counter-rotating belts
Cable feed rate: max. 3,000 mm/s (118"/sec)
Power supply: 230 Volt Single phase
 $\pm 5\%$ - 50/60 Hz
Pneumatic supply: min. 8 bar
(from 51 to 116 PSI)
Acoustic pressure level: < 60 dB
Machine weight: approx. 100 kg (220 lbs)

Product dimensions:

Width of flat cable: max. 70 mm (2,75")
Ext. cable \varnothing : max. 27 mm (1,06")

Pre-feeder combined with a unit equipped with sensors (START-STOP) which allows the AF 100 to start/stop when they detect the cable presence. The AF 100 is a counter-rotating belt pre-feeder which allows the cable cutting/stripping machine to be fed correctly and smoothly and without risk of damage to the cable. An electronic control unit ensures automatic adjustment of the cable feed rate.
